

Foam Tipped Applicator

Small pointed foam tip, static dissipative polypropylene handle

Description

This foam tipped applicator is produced with reticulated 100ppi foam. It is thermally welded to a static dissipative solid polypropylene shaft.

Dimensions

3.26" Overall Length (82.80 mm)

Tip

- 0.137" Dia. (3.50 mm)
- 0.398" Length (10.10 mm)

Handle

- 0.091" Dia. (2.30 mm)
- 2.657" Length (67.50 mm)

Qualities

- Lint and residue free
- Soft and non-abrasive tip
- Rigid ESD safe handle protects static sensitive parts
- Can be used with IPA and DI water, or dry
- Small pointed tip allow for precision cleaning and application
- Made in USA

Applications

- Applying adhesives or other fluxes
- Removing particulates and residues
- General cleaning
- Used in electronic assembly and medical device manufacturing

Ref #	Packaging
1621-PF ESD Non-Sterile	20/50 (20 static dissipative reclosable poly bags per case, 50 swabs per bag)
